Re: Patent Application # 10/714,142

Dear Mr. Gutierrez:

Thank you for reconsidering my patent application.

I have a procedural question to ask. Since, in addition to some new objections and claim rejections in the office action dated 9/06/06, we are revisiting: "Claims 8-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Hattori et al. (United States Patent 5,546,327)."

I am unclear whether the title of my response to the above mentioned office action is a re-do of "Amendment B", or as "Amendment C", or another?

Please advise.

Sincerely,

**Robert Edward Williams
